Positive Experiences

- Presenting my project to other stores
- Helping guests find their perfect jeans
- Watching guests walk out feeling confident
- Seeing my visual suggestions make it to the floor
- Being recognized for top sales performance

Challenges & How I Grew

Felt overwhelmed early on

Took feedback too personally

Struggled with busy guest interactions

Balancing team training + hitting goals

What I Learned:

To ask questions instead of pretending to know

That discomfort means growth

To celebrate small improvements

Career Impact

Came in thinking I
wanted to do visuals

Left curious about
buying and brand
analysis

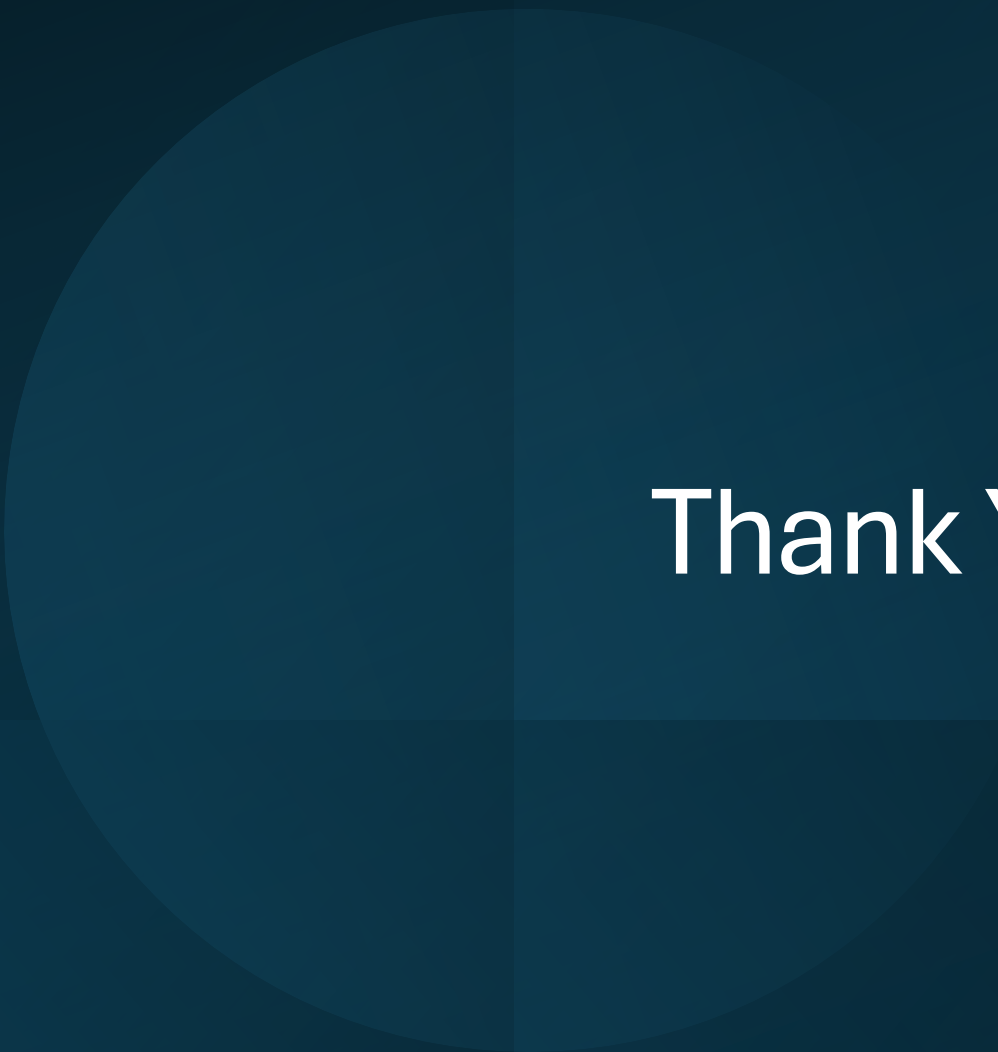

Realized how much
strategy goes into
merchandising

Felt energized by guest
engagement and
product education
